### Doing the World's Fair With Comfort.

Colonel William R. Nelson, proprietor of the Kansas City Star, came to town last Wednesday morning and proceeded at once to do the World's fair. He has very distinct and, we will add, very proper notions as to personal comfort—theories justified in his case by an avoirdupois that demands and exacts consideration. The first object that caught the colonel's eye and awakened his enthusiasm upon entering Jackson park was one of those miniature steam launches which ply a piratical trade upon the meandering waters thereabouts, and down into that particular craft went the colonel, and upon a comfortable cushion sate he him down, and unto the merry mariner he quoth: "Waft me, oh, gentle boatman, o'er the bounding billow and keep well in the shade, for my pores are open, my collar droops and I fain would be refreshed!"

The boat in which Colonel Nelson embarked was the Birdie, having an official draft, as her license indicated, of two feet, but for the six hours during which the colonel compressed that cushion the Birdie for the first time in her seafaring career drew a draft of seven feet and ran the risk of shipping water every time a tack or a turn was made. From this point of view the colonel did the Manufactures, the Fine Arts, the Mining and the Transportation buildings. Subsequently he viewed Midway plaisance from a sedan chair borne by four sweating slaves, and when he got ready to return to the Windemere hotel he did so in a wheel chair.

Yesterday Colonel Nelson resumed operations, and last evening he was wondering why so many people complained of being tired. His experience convinces him that the World's fair can be done without fatigue, provided one goes about it in a sensible way.—Chicago News-Record.

### Guns Not Needed In Summer.

There is neither need for nor sense in taking gun or rifle into the woods at a season when the law forbids its use upon birds and animals certain to be seen. Many an otherwise honest camper has become a law breaker simply because a gun or rifle was within easy reach at the wrong moment. Take all the fishing tackle you may desire, but leave the firearms at home until the proper time for them arrives. "But we might see a bear!" a camper exclaims. Well, suppose you do see a bear? It won't hurt you, and you won't see it long after it sees you. Nor is there glory of much worth in killing a summer bear in poor coat and of no earthly use. "But we might see a —." Yes, exactly! I'll finish it for you. The word was stopped just in time.

The fact is, you might see a moose or a caribou, or a deer or grouse, or duck or any one of the animals or birds which the law of the land, of honor and of common sense forbids you to meddle with for a reasonable time. And, furthermore, my friend, if you should see one of these creatures you'd promptly try to "plug it," and that is precisely what you have no business to do. "Lead us not into temptation" is good, and "Don't lead yourself into temptation" has also certain merit of its own, so why not make a sure thing of it by leaving the tempters behind so they can't tempt you? —Outing.

### An English Observer In Chicago.

It is only in the far west probably that the old race of spitters keep up the best practice. In the cities, at any rate, you seldom see men who tilt back in their chairs, put their heels on the dinner table and take the fire irons at 40 paces. Civilization is progressing when you must not talk about spittoons, but demand that utensil under the name of "cuspidor." Still the most prominent notice in the Woman's building is, "Do not spit on the floor." A man stood beside me as I read this. He wore a slouch hat, to which Buffalo Bill's would be simply a fashionable bonnet in size, trickles of rich tobacco juice wattled his mouth like a barbel's, his boots were models for a coffin maker.

Noticing, I dare say, a twinkle in the corner of my eye, he said slowly and with that grim, smileless humor befitting a slabsided hero from Indiana way, "Say, now, do they mean that we mout take a shot at them pictures?" There is certainly a suspicion of local option suggested in that sentence. Better to have gone on the principle of some other notices which, without waste of printers' ink (and composition), meet your eye everywhere: "No admittance. Go out!"—Chicago Cor. London News.

### Abetting Persecution.

American friends of Russian freedom are not silenced by the promulgation of the treaty with the czar. They protest as earnestly as before against a compact whose political extradition is all on one side. We have no political crimes except at rare intervals. Russian laws turn hundreds of petty words and actions into crimes. From the punishment the only escape is on forged passports, and the treaty makes that forgery an extraditable offense. Kennan asserts that this provision alone will cover every political offense known to the severe Russian law. We have given Russia's government all the assistance it asked in the suppression of free speech among millions of men. In return we get nothing, for we shall want nothing of that sort. The United States is not now a land of the free and a home of the brave in the estimation of Russian republicans who have loved us. —St. Louis Republic.

### One Legged Cyclist.

A transcontinental tour on a bicycle by a man with the orthodox number of legs is no longer uncommon, but the same journey by a man with one leg is certainly novel. Frank S. Beedleson, a young cyclist from Canastota, N. Y., has started from San Francisco to cross the American continent and expects to reach New York city within 100 days. Beedleson is a young man and has been station agent for the West Shore railroad at Canastota. He claims to be the champion one legged cyclist of America. He lost a leg on the railroad several years ago. Beedleson's journey will be watched with interest.—Exchange.

### Red Apples Won the Race.

Two large apple trees stand side by side in an orchard not far from Sydney. On one hung fruit which looked like balls of gold in the sunlight. The apples on the neighboring tree were a bright red. One day the owner of the orchard sent his men to pick the fruit. It was to be sent to the World's fair, and he followed them out among the trees to see that the work was properly done. When at last the apples were packed in the barrels, the fruitgrower decided that those two barrels should separate in the orchard and not meet again until on the exhibition table in the Horticultural building at the fair. The red apples were to go east, and the yellow apples were to go west.

The golden fruit was loaded into a steamer and started toward the Suez canal, while the red fruit was started the same day in a vessel across the Pacific ocean. The fruit grower marked "No delay. Perishable goods," conspicuously on each barrel. He wanted to ascertain which was the quickest route to the World's fair. The barrel of yellow apples passed through the canal, through the Mediterranean sea, up the English channel, and finally reached London. Here it was taken from the boat and sent by railroad to Liverpool. Then the barrel of New South Wales fruit was loaded into an ocean racer and started on its way across the Atlantic to New York, whence it came to Chicago by railroad. It was just 66 days to an hour when Thomas Pugh, the assistant general superintendent of the New South Wales exhibit, received it.

In the meantime the red apples had crossed the Pacific ocean to San Francisco in 20 days. Then they were sent by freight to Chicago. After numerous delays along the way the apples arrived. They had been 52 days on the way and had been admired by World's fair visitors for almost two weeks before the golden apples which grew on the tree beside them in Australia were placed on china plates and set on the table beside them in the New South Wales fruit display.—Chicago Record.

### New Use For Spring Chickens.

Should the little daughter of Mr. Calissi ever recover she owes her life to an Italian violinist in the city. Suffering as she is with brain fever and the doctors giving up all hope of her recovery, this morning she spoke the first word and ate the first morsel she has for several days. A friend of Mr. Calissi, an Italian, visited the sick child and remarked had he known her condition a day or two ago he could certainly have saved her. However, he was willing to try it, and going out he brought in a number of spring chickens. Taking a live chicken he split open its back with a knife, opened it wide and placed the inside of the chicken, entrails, blood and all, over the child's head. As soon as the chicken began to get cold he would open another and place it on in the same manner.

About the time the second chicken began to cool the child spoke, and afterward asked for something to eat. So far 22 chickens have been used, and the child is doing splendidly. What effect the warmth of the chicken and vitals had upon the child's head the writer cannot tell, but should the child fully recover the Italian professor wants the credit. He says he saved his son's life in the same manner when it was necessary to use 48 spring chickens. He prefers rabbits when he can get them in his treatment.—Paducah News.

### Mrs. Stanford's Duty.

The end has come, and to Mrs. Stanford falls the melancholy duty of carrying out a great educational scheme such as the world as never seen. That this scheme should originate in California seems in keeping with a state which is itself an empire, self feeding in almost every particular, as great in beauty and wonders as in size and natural products.

Fortunately for the university, Mrs. Stanford was essentially her husband's helpmeet. She shared his sorrows no less than his joys. She was a counselor and friend to whom he confided all his enterprises. Rising above personal loss therefore, Mrs. Stanford can take her place at the helm and steer a magnificent idea into the safe harbor of accomplished fact. Hers is a glorious task, in the doing of which there will be infinite comfort. Husband and son have only gone before, and spiritual help will come to her who humbly bears her cross and dedicates her life to the advancement of humanity.—Kate Field's Washington.

### Color Photography.

Our Paris correspondent reports that much interest was shown at the Photographic club there in some plates obtained by Professor Lippmann's process. The pictures on glass were cast by an electric projector onto a white screen before an admiring and enthusiastic audience. The first picture to appear on the screen was a bunch of roses, violets and jessamine. They came out with all their natural colors and tints and velvety effects. As a person remarked, the only thing these flowers lacked was scent. A corner of landscape in a Paris park was the next picture. The sky was of true blue. The sanded alleys and the green lawn were as like to nature as nature itself. Next came a cottage in sunlight overgrown with creepers, flags, matchboxes and photographs of illustrated placards.—London News.

### In the House of Lords.

When Lord Roberts takes his seat in the house of lords, he will find himself in the uncommon position of being one of two peers with the same name. The other one, it is true, spells his name Robartes; but that is neither here nor there. The house of lords has also an Earl of Mar and an Earl of Mar and Kellie, an Earl of Lindsay and an Earl of Lindsey, an Earl of Longford and a Baron Langford, a Viscount Midleton and a Baron Middleton, a Baron Sudley and a Baron Sudeley, two Lords Howard and two Lords Napier.—London Tit-Bits.

### The Siam Trouble.

Of the precise merits of the question between France and Siam at its present stage it is not easy to speak until the nature of the French ultimatum is made known. But the Siamese appear to have shown a conciliatory spirit in the boundary dispute. The area in controversy is the broad belt of land lying east of the Me-Kong and between that river and the main mountain chain of Anam. The French accuse Siam of putting garrisons into this area, but it is quite certain that the Siamese have withdrawn from point after point without a struggle, while such conflicts as have occurred seem to have been of local origin rather than under the orders of the king. This monarch, a man of about 40 years, who has been on the throne since the age of 15, is admitted to be a ruler of high character, humane, anxious for reforms and eager to place Siam in the advanced line of modern Asiastic progress. He has made many internal improvements in his kingdom, has fostered commerce, has welcomed foreigners, and if he now hesitates to give up a large part of what he has always considered his domain at the menace of a French fleet and an Anamite army it is what might be expected.

One question now for Siam is, What is England going to do? Without her aid Siam may fall into the hands of France, as Burmah fell into those of England herself. Yet that aid might itself reduce her to the condition of a British protectorate. The disputed boundary is a fair subject for arbitration, but there is no indication yet that France will agree to settle it in that way.—New York Sun.

### Fortifications For an English Port.

The British war department has made arrangements for having the works in connection with the fortifications at Chatham considerably advanced during the current year. The chain of forts which for some years past have been under construction in the vicinity of Medway are intended for the defense of the dockyard and naval arsenal and the military depots at Chatham and also of the approaches to London. The expenditure has already reached a total of many thousands of pounds, and it is estimated that a further outlay of between $100,000 and $150,000 will be necessary before the works are complete. Of this sum it is expected that $70,000 will be expended during the coming year—$45,000 on the eastern defenses and $25,000 on Darland fort. In both of these cases there has been a large increase in the amount of the original estimates.

It was anticipated that the works in connection with the eastern defenses would cost $480,000, but owing to the substitution of civil for convict labor that sum has been raised to $580,000. The original estimate for the construction of Darland fort—$80,000—was also found insufficient, but up to the present time the actual expenditure on this particular fort has been only about $10,000. When the system of fortification is complete, Chatham will be well nigh invulnerable both by land and water.—Exchange.

### Working a Neat Trick.

"I saw a funny thing out in Chicago while on a recent trip to the World's fair," said a gentleman from West Virginia. "I was in the lobby of the Palmer House one evening talking with Colonel Jim Butt, our state commissioner, and several other gentlemen. Against one of the gilded pillars near us leaned a forlorn looking wretch in seedy garb, who every now and then gave vent to a consumptive cough that seemed to cause him intense pain. Suddenly he fell in a heap to the floor, apparently with great force, and in a minute a crowd was around him—a sympathizing crowd too. One fellow, who was the most officious in rubbing the unfortunate's head with some kind of liquid to restore him to consciousness, said:

"'Gentlemen, I tell you what ails this man. It's nothing more or less than starvation. He hasn't had a mouthful to eat in 48 hours. All he wants to bring him around all right is a good beefsteak and some hot rolls.'

"'If that's what ails him,' said Colonel Butt, 'he needn't suffer any longer.' And he pulled out a $5 note and handed it to the Samaritan, who had gradually rubbed his pal back to life. Then the pair ambled off arm in arm to play the trick in some other hotel, but they must have gone at least a block before it dawned on Butt that he had been victimized."—Washington Post.

### Old People Show.

A somewhat novel competition, which is described in our Paris letter published today as constituting the antithesis of the baby show held in the French capital a year or two ago, is about to take place next month in the Pavilion de la Ville de Paris in the Champs Elysees. It is an international show of old people. No one under the age of 90 will be permitted to compete for the prizes offered, but as there are at least 80 duly authenticated centenarians in France alone this restriction will hardly interfere with the success of a show from which the medical authorities expect to derive as much scientific and useful information as they were able to obtain from the baby show two years ago.—New York Tribune.

### A California Fair.

The project of holding a winter fair in San Francisco is gaining strength, and if the financial troubles do not check it the scheme will be carried out. Much depends upon the personal influence of Herr Cornely, the German manager, who is on the coast to push the matter. The Southern Pacific company and many large corporations are earnestly in favor of the project.

The trustees of a military academy in Macon, Mo., have brought an action for heavy damages against five ministers for issuing a boycott on the academy because dancing was taught the cadets.

The German and Swiss governments have entered into an agreement for the improvement of the navigation of the upper Rhine, commencing from Lake Constance.

### How a Dying Man Feels.

Numerous experiments made in hospitals and upon heroic scientists who have permitted tests to be made upon themselves right down to the moment of death warrant these conclusions: That a dying man may be burned with red-hot irons and yet not feel the least pain; that consciousness may remain in the dying almost to the moment of actual dissolution, but that most people generally lose the power of thought long before death; that in cases of death where there seems to be extreme suffering, with writhings and spasms, such phenomena are generally due to reflex muscular action; also, that fear weakens the muscular system and hastens death, while the reverse may prolong life.—*St. Louis Republican.*

### How is This?

Something unique even in these days of mammoth premium offers, it is the latest effort of Stafford's Magazine, a New York monthly of home and general reading.

The proposition is to send the Magazine one year for one dollar, the regular subscription price; and in addition to send each subscriber fifty-two complete novels during the twelve months: one each week.

Think of it. You receive a new and complete novel, by mail, post paid, every week for fifty-two weeks, and in addition you get the magazine once a month, for twelve months, all for one dollar. It is an offer which the publishers can only afford to make in the confident expectations of getting a hundred thousand new subscribers. Among the authors in the coming series are, Wilkie Collins, Walter Besant, Mrs. Oliphant, Mary Cecil Hay, Florence Marryat, Anthony Trollope, A. Conan Doyle, Miss Braddon, Captain Marryat, Miss Thackery and Jules Verne. If you wish to take advantage of this unusual opportunity, send one dollar for Stafford's Magazine, one year. Your first copy of the magazine and your first number of the fifty-two novels (one each week) which you are to receive during the year will be sent you by return mail. Remit by P. O. ## HEART DISEASE 30 YEARS.

GRAND ISLAND, NEB., April 8th, 1892.

*Dr. Miles Medical Co., Elkhart, Ind.*

GENTLEMEN: I had been troubled with HEART DISEASE FOR THE LAST 30 YEARS, and although I was treated by able physicians and tried many remedies, I grew steadily worse until I WAS COMPLETELY PROSTRATED AND CONFINED TO MY BED WITHOUT ANY HOPE OF RECOVERY. I would have very bad sinking spells, when my pulse would stop beating altogether, and it was with the greatest difficulty that my circulation could be started, which would bring me back to consciousness again. While in this condition I tried your NEW HEART CURE, and began to improve from the first, and now I am able to do a good day's work for a man 68 years of age. I give DR. MILES' NEW HEART CURE all the credit for my recovery. It is over six months since I have taken any, although I keep a bottle in the house in case I should need it. I have also used your NERVE AND LIVER PILLS, and think a great deal of them. Z. AVERY.

Mr. Beaurie Spencer, who has been studying law the past few years will be examined next week in Santa Rosa before the Superior Court, and if he passes successfully Sonoma will have the honor of sending out another one of her bright young men to join the legal profession.

The excursion train to Ukiah from San Francisco last Sunday carried several hundred people through one of the most delightful sections of the State. The excursionists were loud in their praise of the Donahue company for their liberality in allowing them to take a $10 ride for the small sum of $2.

The case of the People vs. P. Keil, charged with malicious mischief, which was to have come up before Judge Cheney and a jury next Monday morning at 9 o'clock, has been dismissed on advice of District Attorney Seawell, there being, in his opinion, no case for the prosecution.

One of the largest oat hay crops ever raised in the world is now being baled and shipped to San Francisco from the Rose ranch at Reclamation, several miles south of Sonoma. The crop is so immense that it seems almost impossible to bale and ship the large stacks which cover the several hundred acres comprising the hay field before the rainy season sets in.

Ten thousand sacks of wheat are at present lying on the levee on Sonoma creek on the Senator Jones ranch, awaiting shipment to San Francisco by schooner. The land upon which this wheat was grown was covered with salt water and tules three years ago, but to-day it is the richest agricultural land in the State. A large hay crop was also harvested on the same tract.

Large numbers of deer hunters are seen on the trains of the San Francisco and North Pacific Railway on Saturdays and Sundays. For the most part they drop off at Ignacio and Novato in Marin county and Cloverdale, Windsor and other places in Sonoma county. Hunters report deer plentiful in Marin, Sonoma and Mendocino counties, the close season of the past two years having caused the game to increase amazingly.

A newspaper man, says an exchange, is in some instances like other people. He respects his friend, appreciates a kindness and is always willing to return a favor. In another respect he resembles his fellow men. He will not continue to pat a man on the back, tell what a good man he is, and how much he has done for his town, and give him a free business puff every day, when the man will not, through personal prejudice or otherwise, continue to aid in supporting the paper. In other words he stands by the man who stands by him. That is about the way of the world, and a newspaper man can't be expected to be so much different from other people.

## MARSHAL BREITENBACH.

### He Surrenders to the Sheriff, Has His Examination and is Discharged from Custody.

Louis Breitenbach, City Marshal of Santa Rosa, who wandered off from that city in a partially demented condition one day last week and made his way to his old Sonoma home, delivered himself up voluntarily to Sheriff Sam Allen last Saturday in this place. Upon arriving at the County Seat he at once gave bail in the sum of $1,500, with S. Schocken and Judge Breitenbach as sureties, to answer before the Superior Court for leaving Santa Rosa before turning over to the city all the money he had collected for licenses.

At the present time the money due that city from Breitenbach has been accounted for and turned in by Judge Breitenbach to whom the erratic Marshal turned over all the funds, consisting of a check for $510 and the balance in coin.

Marshal Breitenbach had his examination before Judge Brown in Santa Rosa last Thursday, and there being no evidence of criminal intent on his part in absenting himself from his office for three or four days and his accounts being found correct, he was discharged from custody.

## City Trustees.

At the meeting of the City Trustees held on Wednesday of last week, Messrs. Weyl, Schocken, Trudgen and Seipp were present and Mr. Litzius absent.

The Finance Committee reported that they had examined the Clerk's financial report for the six months ending June 30th, 1893, and found the same correct. The same was accepted and placed on file.

Trustee Seipp of the Street Committee reported that the ditch on the north side of Germany street ought to be cleaned out as it is an intolerable nuisance. Referred to the Street Committee.

A petition was read by Clerk Breitenbach, signed by Chas. McHarvey and sixty-seven other residents of Sonoma, protesting against the building of a new City Hall. Upon motion of Trustee Trudgen the petition was received and placed on file.

Another petition signed by G. B. Perasso and seventeen others, praying for the abatement of a public nuisance in the western part of town, was read and laid over.

It was moved and seconded that the City Clerk give notice that the Board of Trustees will convene as a Board of Equalization on the second Monday of August at 10 o'clock A. M., to equalize the assessment roll.

The following bills were allowed and ordered paid: L. Johnson, rebate, 80 cents; Wm. Linehan, street sprinkling, $16; Firemen, poll tax refunded, $8; F. Breitenbach, salary and supplies, $75.75; G. W. Sparks, salary, $15; L. H. Green, lumber, $14.24; P. Baccala, labor, $23.50. Total, $153.29.

The Board then adjourned.

## That Earthquake.

A sharp shock of an earthquake at 1:10 o'clock on the morning of last Wednesday caused quite a commotion among the nervous people of town. Now, that a comet has lately been located among the heavenly bodies, a spot on the sun discovered and the earthquake business is on we would suggest that no City Hall be built and that all other public improvements be suspended in Sonoma. What's the use of expending money, anyhow, when we are apt to be swallowed up by an earthquake, demolished by the tail of a comet or frightened to death by a big spot on the sun.

## An International Money Order Office.

The Sonoma Postoffice is now an international money order office and remittances can be made to almost every civilized country in the world except Mexico. This will prove a great accommodation to the patrons of the office, many of whom have occasion to send money to Great Britain, Italy and other European countries.

## An Instructive Circular.

The San Francisco and North Pacific Railway Company has in press a neat little circular timetable, which contains a fine map of the territory traversed and will be found of special interest and convenience to tourists and sportsmen. It gives a list of the finest fishing and hunting grounds to be found along the route, the various resorts and their peculiar attractions, and much other valuable information.

A reward of $40 is offered in another column to the finder of a heavy gold watch and chain, lost in this place the latter part of last June. The letters K. E. are engraved upon the case of the watch.

## The Turn Verein Entertainment.

The members of the Sonoma Turn Verein are making great preparations for their entertainment and hop, which will take place on the 22nd inst. Many well-known local artists will take part. Misses Pauline Bates and Stella Johnson will render a beautiful vocal duet, Hon. Fred. T. Duhring will deliver a short address, and Miss Claire Hope will recite. The above well-known people with many others will present an excellent programme. The music has been engaged in San Francisco and is the best to be had. With dancing to follow the entertainment those who attend can not but be well pleased and get their moneys worth. The admission price asked will be the small sum of 50 cents.

## Condition of Jas. Biggins.

Jas. Biggins is still lying very ill at his home on the Petaluma road. He is suffering with a tumor in the cavity of the bowels on the right side and probably on the left lobe of the liver and likely cancerous. This is the diagnosis of his case as given by his physician, who was called to see him this week.

## The College Building Proposition.

The proposition to purchase the old college building for High School purposes, which has been before the Union High School Trustees for some time past, has been abandoned for the present at least. The project to build an annex to the Grammar School has also been cast aside and the High School will remain where it is at present.

## Another Artesian Well.

L. Modini, proprietor of the Garibaldi House in this place, is having an artesian well bored in the rear of his premises. The wellborers are now down nearly 150 feet and it is expected to secure a fine flowing well inside of 200 feet. Sonoma has already some half-dozen of the best flowing artesian wells in the State.

## Referred to the Court Commissioner.

The divorce case of Solomon Schocken vs. Dora Schocken, which has been pending before the Superior Court of this county, has been referred to the Court Commissioner. Mr. Schocken is a prominent merchant of Sonoma.

## Marshal Breitenbach's Successor.

The resignation of Louis Breitenbach as City Marshal of Santa Rosa was accepted by the Council of that city last Wednesday and W. J. Steadman was appointed to fill the place.

## GLEN ELLEN.

S. I. Allen and L. Breitenbach passed through town last Saturday en route to Santa Rosa.

John F. Cramer has sold his farm of 160 acres to the Commercial Fire Dispatch Company of San Francisco.

John Frideger left for the East last Monday. He will visit relatives in Ohio and also take in the World's Fair at Chicago.

J. G. Cromwell has purchased the R. P. Osborne place in Graham canyon and intends to extensively engage in the poultry business.

Mr. L. Knight is lying quite ill at his home near this place. His many friends hope that his illness is not serious and that he will soon be about again.

The Roadmaster has greatly improved the county road near the Dunbar school house, in the way of a new bridge and other necessary work.

The Summit Joint School has been removed to a vacant building on the Anson Wright place, the building being larger, more convenient and less distant to the majority of pupils.

A farewell party was held last Saturday on the Lafferty farm in honor of John Frideger, who left for the East last Monday. A host of friends were in attendance and an enjoyable time was had by all.

We learn that Mr. Ephlin and family will soon return from the East and take up their residence in the southern part of the State. They are disgusted with Eastern climate, and state that there is no place like California.

A distinct shock of earthquake was felt here between the hours of 1 and 2 o'clock yesterday morning. The Southern Pacific Agent informs us that there were two shocks which occurred at exactly 1:10 A. M. Evan may be (W)right about it.

It is not generally known that boiling fruit a long time and skimming it well without the sugar and without a cover to the preserving pan, is a very economical and excellent way—economical because the bulk of the scum rises from the fruit, not from the sugar, if the latter is good. And boiling it without a cover allows the evaporation of all the watery particles therefrom. The porportions are three-quarters of a pound of sugar to a pound of fruit.

In Paris the demand for horseflesh is greatly on the increase. There are over 150 butchers in the French capital who deal in it alone. The price is about half that of mutton or beef.

**Deafness Cannot be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### At the World's Fair.

The Moors, the Turks, wild men with dirks
Here show their customs curious,
The Japanese and folks like these
Wear knives that are injurious.

Here are balloons and foreign tunes
That skirl both fast and furious,
And Cairo folk as brown as oak
And Zulus true or spurious.

The dancing girls make startling whirls—
Be careful how you look at them.
All innocent and shy I went
And—well—a peep I took at them.

Men from Ceylon you'll see anon,
From Sitka and from Tokio.
For sights so rare you everywhere
Fees to men white or smoky owe.

Here mosques you see and Japan tea,
And clams they serve romantically,
And sliding cars and foreign jars,
For which they charge gigantically.

The Ferris wheel, with arms of steel,
High as a tower will wind you up.
If you should fall, for good and all
The doctors they would bind you up.
—Eugene Field in Chicago Record.

### Human Nature Is Queer.

Next to the first pronounced hoopskirt on Broadway the first straw hat of the season creates the largest attention. When a man has confidence enough in the weather to start out for a two days' trip with a straw hat, he is planning a great responsibility upon the weather bureau, which stands for our modern providence. I saw such a man at the Fifth Avenue hotel one day, and his was the first straw hat of the season. To say that he attracted much attention and was the subject of a great many pleasantries is putting it very mildly. There are some people, however, who are either indifferent to criticism or too obtuse to observe it, who begin things without consulting other people. Somebody has to begin, you know, but the large majority of mankind lack the nerve of womankind and dread to be conspicuous in any particular as to dress.

Men are awful cowards when it comes to dress. They wait for those of better nerve and then follow like a flock of sheep. Scarcely a man of all those who smiled and sneered and laughed at the man with the first straw hat but will be wearing a straw hat himself this summer. Yet if all men were like these no such thing as the comfortable straw would have ever been worn, because no man would have had the courage to begin it. There is a certain humor in the incongruity of things, it is true, and if a man appear on Broadway in straw hat and ulster he is likely to be a sensation—at this season of the year. A month or two later and the man with the overcoat and straw may be seen at any summer resort.—New York Herald.

### Champion of the British Monarch.

Queen Victoria has lost her champion. He died only the other day, but his son succeeds to the office. It is his duty to stand ready at all times to defend against all comers the right of the sovereign to her crown. But he only appears in public, personally or by duty, on coronation day, when, unless the sovereign dispenses with the ceremony, he must declare her formally crowned, throw down the gauntlet and defy her enemies. If the champion fails in this duty, he forfeits his estate, given the family by William the Conquerer, and sinks into middle class obscurity, for the queen's champion is not a nobleman. Yeoman and squire was Robert de Marmyon when William the Conquerer made him his champion and gave him the manor of Scrivelsby, and his descendant, who has just surrendered the office by death, was a simple justice of the peace. Queen Victoria did not call upon her champion at her coronation, nor did William IV. George IV was the last king at whose coronation the ceremony was observed, but the simple country squire who succeeds now to the championship is not at all likely to be called upon to perform the duty of his office for Albert Edward.—Springfield Republican.

### Experiments With Infected Cattle.

Interesting experiments are now being tried in England by a royal commission on tuberculosis. A cow is selected and for a considerable time is watched carefully to see that it is free from disease. It is then fed for some days on food infected with the bacteria and tuberculosis, and afterward time is allowed for the development of the infection.

The commission is to report whether meat and milk from such animals are infective, and if so the degree to which the use of them is likely to affect public health.

The experiments, which are necessarily slow, have consumed much time. The commission not recently to consider the results so far arrived at, but the final report will probably not be made before the autumn.

In view of the care with which this work has been done, the results will be of considerable value and may cause changes in the laws respecting the importation of cattle.—New York Sun.

### The Caliph In a Fix.

The caliph of Khartoom is in a bad way. He owns 700 watches, and not one of them goes. In 1885, when the Mahdists invaded the town, all the European watchmakers left the place, and none of the natives understand watchmaking. To have 700 tickers and not know the time—awkward, very. The caliph has sent a special messenger to Suakin to engage a watchmaker, but he has been received very coolly. The ruler of Khartoom is said to be rather quick tempered and capable of cutting off your head if all his watches don't keep time to the second.—Petit Journal.

### American Hay In Europe.

The first full cargo of hay ever sent from this country to Europe will be shipped to Havre in a few days per the German steamer Freiburg. Hay is worth from $40 to $50 a ton in many sections of Europe at this time, and the freight charge of $2.50 per ton cuts but a slight figure in the account.—Banger Commercial.

The wedding ring which was used at the marriage ceremony of the Duke of York and the Princess May was given by the Welsh people. It is made of Welsh gold from the Merionetshire mines.

### Sad Associations.

Of the sad and awful associations that lurk in certain odors, who can bear to speak? No one who has bent in tearless agony above quiet hands folded over fading white roses. Or who—but there are some things even memory dare not recall.—Boston Commonwealth.

### A Woman Buying Stamps.

"How many stamps do you sell for a quarter?" she said to the stamp clerk at the postoffice.

"Twenty-five 1-cent ones or 12 2-cent ones, ma'am."

"Don't you give back the odd cent change?"

"Certainly."

"Are they the Columbian stamps or the old kind?"

"I can give you either."

"Don't the old style ones come a little cheaper now?"

"No, ma'am."

"I thought they would. They're out of style, you know."

"The government receives them the same as the new ones in payment of postage, and many people prefer them."

"But their red color doesn't match some styles of envelopes."

"I can't help that."

"Couldn't you sell me a dozen of the old 2-cent ones for 15 cents?"

"No, ma'am."

"Couldn't you on Friday?"

"No, ma'am."

"But that's bargain day in the stores."

"Possibly, but not at the postoffice."

"When is your bargain day?"

"We don't have any."

"Not have any bargain day! Well, I never! And my husband told me the postoffice was run on business principles. Why, you don't know the first principles of business."—Harper's Bazar.

### Funny Stories of Indian Students.

European history and law appear to offer sad stumbling blocks to the native students in the Indian colleges and schools. In one paper the question was to explain the sentence, "She (Queen Mary) was not only his wife, but his friend." The translator made the passage to run, "She was not only his wife, but the wife of all his friends!" Another student defined Salic law as "a law in France by which no man descended from the female sex was to get the French crown." The habeas corpus act was described as a very important act passed in 1623. It declared, said one student, "that the bread and wine taken at the Lord's supper is the real blood and body of Christ."

Another imagined the act of uniformity to be a law "that all soldiers should dress alike." Asked to explain the expression "a sponging house" another ventured upon the following wild guess, "In England there are many people who live by sponging on others, so there are houses in which some who are too lazy to work depend on others." The last example is that of an embryo political economist who on being asked to write a note on the poor law said: "The poor laws in 1601 were passed in Elizabeth's reign. They were that all fires in England were to be put out at 8 o'clock."—Deccan Budget.

### Danger In a Barber Shop.

It is dangerous to get shaved by an inexpert, clumsy handed, negligent or groggy barber. It is dangerous to get shaved in any barber's shop in which the lather is not perfectly pure, or in which any of the tonsorial appliances are unclean. The man who would guard against danger ought to have a lather mug and brush for himself, ought not to let his face be touched by a sponge that is in general use and ought not to patronize a barber who will use the same towel for different customers.

We whisper these words here, not as knowledge for men of circumspection, but as a warning to negligent men, who throw away dull care when they get into a barber's chair. We assure them that there are doctors who can tell of the perils that may be encountered under the razor.—New York Sun.

### Care of the Eyes.

Avoid all sudden changes between light and darkness. Never begin to read or write or sew for several minutes after coming from darkness to a bright light. Never read by twilight or moonlight or on a very cloudy day. Never read or sew directly in front of the light or window or door. It is best to have the light fall from above, obliquely over the left shoulder. Never sleep so that on first awaking the eyes shall open on the light of a window. Do not use the eyesight by light so scant that it requires an effort to discriminate.—National Educator.

ALAMEDA, COL., Jan., '93. All

My wife was troubled with nervousness about one year before she took Pastor Koenig's Nerve Tonic, and at that time had very severe attacks of spasm, convulsion, and pains in different parts of the body; when in this state her lower jaws would act violently and set sometimes, bite her tongue, breathe heavily, then short, then seemed to stop entirely, get a wild look in her eyes and rolling around, then stop sometimes; it would take two men to hold her in bed, otherwise her body would cramp and be so for two hours. She took but two bottles of the Nerve Tonic, which cured her entirely of all these torments, which myself and wife gladly testify it truly had the desired effect D. S. M'GILLIS.

Mrs. Ester Dovilbiss, 354 S. Tenth street, San Jose, Cal., writes, October 1889: Pastor Koenig's Nerve Tonic has indeed done wonders in my part of the country. There has been bought in my neighborhood over $75 worth.

KENDALL'S SPAVIN CURE.

STOCKTON, CAL., Dec. 19th, '92.

DR. B. J. KENDALL CO.

Gentlemen:—Having read one of your Treatise on the Horse and seeing the Spavin Cure advertised, I thought I would try it. I had one horse with a prominent spavin of 12 months standing. I removed it with 2 bottle. I tied upone fore foot on same side the spavin was and compelling the horse to rest on lame leg while I took a surcingle and drew it across the hock or spavin until the hock or spavin got very warm with the friction, then putting on Spavin Cure. I had a mare that had a running from her nose for 12 or 14 months. I rubbed the Spavin Cure from her eyes down to nostrils, then from back of jaw bone down under the throat for a week. I have not seen any discharge for two months.

Yours truly, HUGH McDADE.
